Career Objective

A motivated engineering graduate seeking a UI/UX Designer role. Passionate about solving real-world problems through intuitive, user-centered design and eager to contribute to a team's success while continuously learning.

Education

Bachelor of Technology (ECE) 2025
Sree Chaitanya College of Engineering 65%
Diploma (ECE) 2022
Jyothishmathi Institute of Technology and Science 46%
Secondary School Certificate (SSC) 2018
Rishi Convent High School 77%

Technical Skills

Design Tools: Figma (Advanced), Framer (Basics), Google Stitch, Canva
Design Competencies: User Research, Wireframing, High-Fidelity UI Design, Interactive Prototyping, Design Systems, Accessibility (WCAG)
Research & Strategy: Design Thinking, Empathy Mapping, User Persona Development, Usability Testing, Competitive Analysis

Professional Experience

Junior UI/UX Designer – Intern March 2026 – Present
TechGy Innovations

Featured Projects

Planet Green CRM | Lead Tracking Dashboard 2026

- Created a dashboard to track the status of leads, leveraging modern AI tools including Google Stitch.
- Designed intuitive data visualizations to give teams a clear, real-time overview of their sales pipeline.

QuickBooks Connector | Financial Integration UI 2026

- Designed the UI for a financial integration layer that syncs business activity into QuickBooks with no manual entry.
- Covered key flows including real-time transaction sync, automated invoicing, and error handling with validation for duplicates and missing fields.

Green Land Capital | Agent Lead Tracking Dashboard 2026

- Designed a dashboard for various officers to track the status of leads brought in through multiple agents in the land buying and selling domain.
- Structured complex multi-agent data into a clear, role-based interface for efficient lead management.

NirmanAndhra | Real Estate Website Design 2026

- Designed the website for NirmanAndhra, a Planet Green concept, showcasing flats for sale across Andhra Pradesh.

- Structured property listings and location-based browsing into a clear, trustworthy digital experience for prospective buyers.

Veda Bharat | Warehouse & Product Tracking Dashboard 2026

- Designed a dashboard for the Veda Bharat community under Planet Green to track warehouse inventory and product data for their website.
- Focused on clarity and ease of use for community administrators managing stock and product listings.

Kala Kutami | Folk Art Marketplace & Booking Platform 2025

- Designed an end-to-end platform connecting users with traditional artists, featuring a dual-function e-commerce and service booking engine.
- Optimized wedding logistics into an intuitive 3-step booking flow, significantly improving task completion rates.

Screen Universe | OTT Content Discovery Website – Academic 2024

- Architected user flows and high-fidelity prototypes to solve ”choice paralysis” in streaming content consumption.
- Prioritized visual consistency to enhance user engagement metrics.

Certifications

- Advanced UI/UX Design Certification – Student Tribe (ST School)
- UI/UX Design Fundamentals – Google
- Design Thinking & Human-Centered Design – Udemy

Personal Proficiencies

- **Adaptability:** Open to feedback and happy to pivot when project needs change.
- **Effective Time Management:** Good at organizing tasks to meet deadlines consistently.
- **Interpersonal Skills:** Friendly, approachable, and able to communicate ideas clearly.
- **Team Work:** Enjoy collaborating on ideas and supporting the group’s goals.
- **Quick Learner:** Always eager to dive in and pick up new tools on the fly.
